

PRACTICAL USEFULNESS AND SYSTEM ACCURACY

Participant Data

Name: _____

Years of teaching experience in programming: _____

Programming courses currently taught: _____

Programming languages mastered: _____

Instructions: Below you will find a series of statements about the SimilCode system you have just tested. Please indicate your level of agreement with each statement using the following scale:

- 1 = Strongly disagree
- 2 = Disagree
- 3 = Neither agree nor disagree
- 4 = Agree
- 5 = Strongly agree

SECTION A: PRACTICAL USEFULNESS

Statement	1	2	3	4	5
1. The SimilCode system facilitates the detection of similarities in student code.	☐	☐	☐	☐	☐
2. The multidimensional analysis (lexical, structural, stylistic, functional, and syntactic) provides valuable information for code evaluation.	☐	☐	☐	☐	☐
3. The algorithmic complexity calculation (Big O) is useful for evaluating the efficiency of student code.	☐	☐	☐	☐	☐
4. The system would save time in the evaluation of programming assignments compared to traditional methods.	☐	☐	☐	☐	☐
5. The individual comparison module satisfies the basic needs of similarity detection.	☐	☐	☐	☐	☐
6. The group comparison module is useful for analyzing multiple student submissions simultaneously.	☐	☐	☐	☐	☐
7. I would use this system in my regular teaching activities.	☐	☐	☐	☐	☐

SECTION B: ACCURACY OF RESULTS

Statement	1	2	3	4	5
8. The similarity scores generated by the system match my expert evaluation of the test cases.	☐	☐	☐	☐	☐
9. The system correctly identifies identical code (100% similarity).	☐	☐	☐	☐	☐
10. The system appropriately distinguishes between functional and structural similarity.	☐	☐	☐	☐	☐
11. The system correctly detects when two code fragments are different.	☐	☐	☐	☐	☐
12. The results of the algorithmic complexity analysis are technically correct.	☐	☐	☐	☐	☐
13. I would trust the system's results to support academic decisions on code similarity.	☐	☐	☐	☐	☐

SECTION C: COMPREHENSIBILITY OF JUSTIFICATIONS

Statement	1	2	3	4	5
14. The explanations generated by the system are clear and understandable.	☐	☐	☐	☐	☐
15. The justifications address technically relevant aspects of the code.	☐	☐	☐	☐	☐
16. The level of detail of the explanations is appropriate (neither too technical nor too simple).	☐	☐	☐	☐	☐
17. The justifications help understand why a particular similarity score was assigned.	☐	☐	☐	☐	☐
18. The technical terminology used in the justifications is precise and correct.	☐	☐	☐	☐	☐
